

Cost-Efficiently Extend the Reach of Your Spiritual Care Coverage

With a High Quality Website Branded With Your Institution's Name and Logo

A professional-quality spiritual care website is a low-cost clinical resource that extends the reach of chaplains' in-person care

- Professionally designed with content written by expert professional chaplains
- Content addresses spiritual questions, painful feelings, grief and loss, planning ahead for end of life
- Includes special sections for the seriously ill, people in various stages of cancer, and family caregivers
- Resources section with prayers and meditations, spiritual exercises, and self-assessment tools
- Connect With A Chaplain page customized to connect to your institution's chaplains
- Avoid the expense of building a quality website from scratch
- We refresh and update content
- Friendly to mobile devices – tablets, smartphones, etc.
- Sites available to co-brands:
 - ChaplainsOnHand.org***
 - CantBelieveIHaveCancer.org***
 - ChaplainCareForVeterans.org***

People Want Spiritual Care Included in Their Health Care

- Patient visits by professional chaplains during the course of the hospital stay lead to increased scores on the patient satisfaction surveys HCAHPS and Press Ganey, and can have positive fiscal consequences.
- Research studies show that the majority of Americans say that spirituality, in some form, should be an important consideration in their health care. Yet 72 percent of patients in a study note their spiritual needs were minimally or not supported.
