Partnering with the Hospital to Reduce Readmission Rates Through Chaplaincy-Based ACP Using The Conversation Project Model

Phyllis Coletta, JD
Rev. Rosemary Lloyd, BSN, MDiv

Goals For Today’s Session

- Demonstrate the importance of having The Conversation to increase quality, patient-centered care and reduce readmissions
- Identify barriers to having The Conversation
- Develop a personal and professional plan of action
- Learn strategies for engaging communities in having The Conversation—internally and beyond the walls of your institution
Chaplain as Business Partner

- How to help with fiscal challenges?
- In many hospital settings, Advance Care Planning (ACP) falls to the chaplains and social workers.
- How can you do this work EFFECTIVELY in a short period of time?

ACP Can Reduce Readmissions

- Strong end-of-life planning overall – including Advanced Directives, palliative team planning, hospice, and the presence of a POSLT system (Physician Orders for Life Sustaining Treatment) are effective in reducing readmission rates.
  

- When patients desire and are referred for hospice services, hospitalization rates in the subsequent 30 to 180 days are decreased by 40% to 50%.
  
A public engagement campaign dedicated to assure that everyone’s wishes for end-of-life care are expressed and respected.

TCP Founder Ellen Goodman
70% WANT TO DIE AT HOME.

70% ACTUALLY DIE IN THE HOSPITAL
“I’m not afraid of death; I just don’t want to be there when it happens.”

~ Woody Allen

THINK IT'S IMPORTANT TO HAVE THESE CONVERSATIONS
30% HAVE ACTUALLY DONE SO

What’s the Matter with Me

Public Awareness
Community Engagement
Health Systems Transformation
The Conversation Starts with You
The Starter Kit

**Step 2 Get Set**

What’s most important to you as you think about how you want to live at the end of your life? What do you value most? **Thinking about this will help you get ready to have the conversation.**

Now finish this sentence: What matters to me at the end of life is... (For example, being able to recognize my children; being in the hospital with excellent nursing care; being able to say goodbye to the ones I love.)
The Starter Kit: Get Set

As a patient, I’d like to know...

1. Only the basics about my condition and my treatment
2. All the details about my condition and my treatment

As doctors treat me, I would like...

1. My doctors to do what they think is best
2. To have a say in every decision
The Starter Kit: Get Set

If I had a terminal illness, I would prefer to...

1. Not know how quickly it is progressing
2. Know my doctors best estimation for how long I have to live

How long do you want to receive medical care?

1. Indefinitely, no matter how uncomfortable treatments are
2. Quality of life is more important to me than quantity

The Starter Kit: Get Set

How Involved do you want your loved ones to be?

1. I want my loved ones to do exactly what I’ve said, even if it makes them a little uncomfortable
2. I want my loved ones to do what brings them peace, even if it goes against what I’ve said

When it comes to your privacy...

1. When the time comes, I want to be alone
2. I want to be surrounded by my loved ones
The Starter Kit: Get Set

When it comes to sharing information...

1. I don't want my loved ones to know everything about my health
2. I want to share information
3. I am comfortable with those close to me knowing everything about my health
4. I don't want to share information
5. I want to keep my health private

The Starter Kit: Go

When you’re ready to have the conversation, think about the basics.

MARK ALL THAT APPLY:

WHO do you want to talk to?
- Mom
- Dad
- Child/Children
- Partner/Spouse
- Sister/Brother
- Faith leader (Minister, Priest, Rabbi, Imam, etc.)
- Friend
- Doctor
- Caregiver
- Other:

WHEN would be a good time to talk?
- The next holiday
- Before my child goes to college
- Before my next trip
- Before I get sick again
- Before the baby arrives
- The next time I visit my parents/adult children
- At the next family gathering
- Other:

WHERE would you feel comfortable talking?
- At the kitchen table
- At a favorite restaurant
- In the car
- On a walk
- Sitting in a park
- At my place of worship
- Other:

WHERE would you feel comfortable talking?
☐ At the kitchen table  ☐ Sitting in a park
☐ At a favorite restaurant  ☐ At my place of worship
☐ In the car  ☐ Other:  

Icebreakers

Here are some ways you could break the ice:

“I need your help with something.”

“Remember how someone in the family died—was it a ‘good’ death or a ‘hard’ death? How will yours be different?”

“I was thinking about what happened to [ ] , and it made me realize…”

“Even though I’m okay right now, I’m worried that [ ] , and I want to be prepared.”

“I need to think about the future. Will you help me?”

“I just answered some questions about how I want the end of my life to be. I want you to see my answers. And I’m wondering what your answers would be.”
Don’t Panic – It’s OK: A Letter to my Family

If you are faced with a decision that you’re not ready for,
It’s ok
I’ll try to let you know what I would want for various circumstances,
But if you come to something we haven’t anticipated,
It’s ok
And if you come to a decision point and what you decide results in my death,
It’s ok.
You don’t need to worry that you’ve caused my death – you haven’t –
I will die because of my illness or my body failing or whatever.
You don’t need to feel responsible.
Forgiveness is not required,
But if you feel bad / responsible / guilty,
First of all don’t and second of all,
You are loved and forgiven.

If you’re faced with a snap decision, don’t panic --
Choose comfort,
Choose home,
Choose less intervention,
Choose to be together, at my side, holding my hand,
Singing, laughing, loving, celebrating, and carrying on.
I will keep loving you and watching you and being proud of you.

Leaving in Action

- Complete the Starter Kit
- Have the Conversation with a Loved One
- Appoint a Healthcare Agent/Proxy/POA for healthcare
- Bring What Matters Most concept back to your institution, community, congregation, circle of care
Accessible: Our Tools

- Conversation Starter Kit (translations + EMR summary)
- How to Talk to Your Doctor Starter Kit
- Starter Kit for Parents of Seriously Ill Children
- Starter Kit for Families and Loved Ones of People with Alzheimer’s Disease or Other Forms of Dementia
- Starter Kit for How to Be and How to Choose a Health Care Proxy
“Our ultimate goal, after all, is not a good death, but a good life to the very end.”

– Atul Gawande
Conversation Ready Principles

Engage with patients to understand what matters most to them at the end of life

Steward information about each patient’s end-of-life care wishes as reliably as we do allergy information

Respect people’s wishes for care at the end of life by partnering to develop a patient-centered plan of care

Exemplify this work in our own lives, so that we fully understand the benefits and challenges

Connect in a manner that is culturally and individually respectful of each patient

VIRGINIA MASON MEDICAL CENTER: Electronic Medical Record
One Place = Advance Directive Note Type

- All relevant documents and conversations
  - Ambulatory: 1’ Care & specialty
  - Acute Care: ED, Hospital, CCU
  - Palliative Care
  - Scanned POLST, Advance Directives, DPOA
Care New England: “Conversation Nurse”

- RN with excellent communication skills who can be deployed for goals of care conversation
- Work with medical team and/or palliative care team to help communicate goals of care
- Very patient centered
  - “What is important to you?”
  - “Where do you want to receive care?”
- Meets either with physician or independent of physician and confers with medical team

Exemplify: “Talk Turkey”

- In 2 days, over 20 staff volunteers distributed 1,300 Health Care Proxy forms and 150 Conversation Starter Kits.
- Interviewed 17 staff members about their own personal and professional views on having a HCP.
- Produced short video for use in outreach to staff and patients.
Starting The Conversation

Mount Auburn Hospital, Cambridge, MA
- Group educational series in out-patient setting
- Used the Starter Kit vs no Starter Kit
- 70% completed proxy vs 30% completed proxy
- Social network – factor of four people

Give the Starter Kit to patients when they turn 55yrs old
- This is important, so I know your wishes
- This is a gift you can give to your children

Connect: Henry Ford: Faith Leader Conference

- “Advance Planning for End of Life: Tools for Faith & Health Conversations” Program goals:
  - engage the local faith community on issues surrounding end-of-life care and planning.
  - help healthcare providers and clergy understand their role in the collaborative effort to support patients and families
- Keynote: combine theology and patient care: faith often influences a patient’s response to a terminal illness.
- Next steps:
  - training sessions for faith leaders on advance-care planning
  - web-based tools and resources for the faith community, including sermons, bulletin articles and frequently asked questions
Advance Care Planning and The Conversation Project

Clinical Director, Advanced Illness Management
September 10, 2015

Creating America’s healthiest community, together.

Conversation Sabbath

Oct. 27 – Nov. 5 | #ConvoSabbath
6 Reasons for Faith Community Spread

- Existing communities - shared values
- Encouraging more compassion and less fear
- Story-telling communities
- Planting seeds of cultural change
- They like to eat together!
- Positioned to support family care-providers and people with advanced and serious illness

Two More Reasons…

- Starter Kit reaches clergy
- An avenue for reaching diverse populations where they live and pray and gather

Starter Kit Workshop at Islamic Society of Boston Cultural Center
May 2015
Celebrating Readiness

- To talk about the reality of our mortality
- To share our wishes with loved ones and doctors
- To ground our conversations in our values and faith

Community Engagement Resources

**Community Resource Center**

Welcome to the Community Resource Center! Over the past couple of years, we’ve been working with hundreds of individuals and organizations to bring The Conversation Project to people where they live, love, and play. Here we’ve collected tools developed in our TCP communities— all available to you for free.

You can download useful tools and customize them to suit your community. There’s no “one way” to approach this work— you’ll know best what will work in your own community.

Tip: Read our Community Getting Started Guide for an overview of how to begin this work.

We’re looking forward to supporting and learning with you!

*If you would like to stay connected, join our free monthly Community Call. Email conversationproject@hil.org to sign up.

Developing Your Action Plan

Change takes place when people decide to take action. *What action do you want to take?*

- Who do you need to talk to when you get back?
- What information will you still need?
Developing Your Action Plan

Change takes place when people decide to take action. *What action do you want to take?*

- Who do you need to talk to when you get back?
- What information will you still need?
- In one year, if you were to have wild success, what will have been the factors of this success?
- In one year, if this project was a flop, what will have been the factors of this failure?
Developing Your Action Plan

Change takes place when people decide to take action. *What action do you want to take?*

- Who do you need to talk to when you get back?
- What information will you still need?
- In one year, if you were to have wild success, what will have been the factors of this success?
- In one year, if this project was a flop, what will have been the factors of this failure?
- What will you try by next Tuesday, in six months, in one year?

Possible Community Partners

- Assisted Living Facilities
- City Employee Retirement System
- Dept. of Public Health, Mental Health, Behavioral Health
- Elected Officials
- EMT providers
- Estate/Legal entities (elder law, local bar association…)
- Employers
- Faith-based organizations, clergy, chaplains, ministerial associations
- Financial community banks, CPA firms, financial advisors
- Health plans/insurers
- Home care/VNA
- Retirement communities and home owners associations
- Homeless shelter/services
- Hospice
- Hospitals/Health systems
- Local resources: libraries, Chamber of Commerce, Lion/Rotary/Elks Club…
- Media channels (local, state, regional)
- Medical/Nursing/Hospital Association
- Nursing homes, rehab facilities, long term care
- Physician office practices/primary care
- Prisons/jails
- School District – employee benefits, Parent Teacher Organizations
- Senior Advocacy Organizations/Elder Services (Area Agency on Aging, senior center, transportation services, meals on wheels)
- Universities – students, faculty, alumni
- Veterans Services
